MSILA UNIVERSITY
Licence Information Systems and
Software Engineering (ISIL)

PERSONAL PROFILE

A recent university graduate, majoring in software engineering ,I started my programming journey in high school, I have experience in developing desktop applications for management and billing, I also have experience in developing the back-end web.

WORK EXPERIENCE

◉ **PERSONAL PROJECTS**

- I developed point of sale (POS) system software.
- I have developed management programs such as stores, customers, suppliers, products and invoices.

◉ **UNIVERSITY PROJECTS**

Licence project

- I developed a desktop application to manage an e-commerce and delivery company.

master2 project

I developed a platform to manage doctors' clinics and enable patients to book appointments online using multi tenancy technology. This project was a startup.
